Installation Recommendation

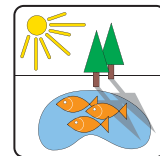

Maximum pond volume in full shade with waterplants and fish stocks up to 10" of fish per 100 gallons.

Maximum pond volume in full sun or partial shade with waterplants and fish stocks up to 10" of fish per 100 gallons.

Maximum pond volume in full shade with koi or fish stocks up to 20" of fish per 100 gallons.

Maximum pond volume in full sun or partial shade with koi or fish stocks up to 20" of fish per 100 gallons.

Flow Recommendation

The flow through the filter should be approximately 50% of your pond volume every hour. e.g. For a 1000 gallon pond, you will need a flow of around 500 GPH.

Clear Water Guarantee

Provided that Fish Mate UV+Bio Pond Filters are operated in accordance with the recommendations and the instructions supplied, Pet Mate Ltd. guarantee clear water visibly free from suspended algae.
